A complete Report will be always available in the discipline page and will show all the costs, record by record.

This report can also be downloaded and used by National Federations as a memo.

NOTA BENE:

All the sports records for both Athletes and Staff Members, such as the choice of the specialities, the number of participants for each speciality etc., must be in compliance with the limits set out in the World Skate Inline Freestyle Technical Regulations.

The System will check everything during the saving process and, every time it notices errors, mistakes or in case of a misuse of the Platform (i.e. limits exceeding, documents missing etc.), the System will automatically generate a red flag notice which will inform you about the kind of error that occurred and what needs to be done in order to solve the problem.

All the authorized users can access all the pages and also modify and manage their own personal Page. In this page you will be also able to upload documents.
